

TRION[®] Air Bear OEM-2 Air Filters

High Performance Honeywell[®] Sized Replacement Air Filters

Overview

The TRION[®] brand of Johnson Controls Incorporated is a 75-year strong OEM of residential, commercial and Industrial air purification products. For residential applications, TRION innovated the deep 3" and 5" air filtration products. For clarification, deep filters often are mistakenly believed to be a heavy load on the HVAC system. In reality the exact opposite is true.

Deep filters were innovated by TRION to mitigate increased pressure drop when moving to higher MERV air filters. Deep air filters have more media area providing more space for the air to pass thru which lowers the pressure drop. An another bonus, the extra deeper air filter media significantly increases the filter life by providing more contaminate holding capacity. Altogether, these two advantages are why more and more homes are moving to deeper air filters leaving behind the thinner 1" filters.

Until now TRION has focused just on it's own Air Bear family of air filter cabinets and filters. But as the attention to Indoor Air Quality has increased in the Covid-19 era, TRION proudly offers the OEM-2 Air Filter brand of replacement filters compatible with all Honeywell F100 & F200 media cabinets.

Until now TRION has focused just on it's own Air Bear family of air filter cabinets and filters. But as the attention to Indoor Air Quality has increased in the Covid-19 era, TRION proudly offers the OEM-2 Air Filter brand of replacement filters compatible with all Honeywell F100 & F200 media cabinets.

OEM-2 Air Filters provide cost savings for homeowners without any sacrifice in product quality. For each size filter, TRION provides 3 different filter efficiencies: MERV-13, MERV-11 and MERV-8.

Features

- Fits Honeywell[®] F100 and F200
- Suitable for use with all types of furnaces and central forced air unitary HVAC equipment.
- Quick and easy installation
- Available in 2 sizes: 16x25x4 and 20x25x4
- OEM-2 Media Air Cleaners are available with high performance MERV 8 mechanical media, MERV 11 and MERV 13 electrostatically charged synthetic filter media.

Performance

- Tested in accordance with ASHRAE 52.2-2017

TRION Air Bear OEM-2 Dimensions and Specifications

TRION OEM-2							
Product Description	Nominal Size	TRION Part #	MERV	Pleats	Case Size	Actual Size	Honeywell Part #
