

SECURITY GRILLES

SG200-SD

SG200-SD

STEEL

The SG200-SD security grille is designed for maximum security applications. The 3/16" round holes allow a greater free area and maximize airflow while meeting security and safety needs. The SG200-SD can be used as a supply or return grille. The SG200-SD complies with National Institute of Corrections guidelines for suicide prevention and California Title 24.

FEATURES

- Face Plate: 3/16" steel with 3/16" diameter round holes on 9/32" staggered centers and 1" border
- Sleeve: 3/16" steel (available in 6", 8", 10", 12" and 18" lengths)
- Steel construction
- All welded construction
- Standard finish is white (WH)

ACCESSORIES

- Angle frame (AF) 1-1/2" x 1-1/2" x 3/16" steel angle iron welded at corners (shipped loose and unpainted for field mounting)
- Anchor bars (AB) 3/4" diameter x 3" long steel bars positioned 3" from back of face plate on top & bottom of sleeve
- Security bars (SB) 3/4" diameter steel bars on a maximum of 6" centers; security bar grid is tack welded twice at each intersection and welded completely around at the sleeve joint
- Steel opposed blade damper (SDRO - rear operated) is welded into sleeve

Tuttle & Bailey designed this product as "Suicide Deterrent" and makes no claim as to this product being "Suicide Proof".
