CEILING DIFFUSERS

Concentric Ceiling Diffuser DSR, DSR-P

STEEL FRAME
w/ ALUMINUM PLENUM

The DSR / DSR-P diffusers are designed and built specifically for applications requiring a supply diffuser with integral return or exhaust. It is designed to work with rooftop units and other unitary air conditioners. The aluminum diffuser has supply louvers with a center grid core. It is available in 4-way pattern only.

FEATURES

- Concentric diffuser (Supply / Return (or exhaust))
- Can be installed in T-bar ceiling or exposed duct
- 4-way supply distribution
- DSR-P includes galvanized plenum
